The group talked about improvements to the dog park, possibly reseeding the areas of concern. We talked about key cards for entrance to the area. Also we talked about closing the dog park every 6 weeks to allow for growth of the current grass. Also we looked at possibly increasing the annual line item budget so that each year the committee can make improvements to this area.

We discussed making improvements to the lighting around the walking track. One of the ideas that Mr. Zook will investigate is going to a flat panel light illuminated by LED light Bulb. Other possibilities include solar panels that have an automatic dimming setting.

We also discussed that progress of the Gazebo and the challenges the OPS committee is facing on the install of the gazebo.
