

PIPELINE ALIGNMENT MAP

Project Description

The City of Orlando will be installing approximately 16,000 feet of 42-inch diameter ductile iron reclaimed water main piping south along Woodbury Road from approximately 1,500 feet south of SR 50 to the intersection of with Golfway Boulevard, continuing under the pavement of the southbound lane of Golfway Boulevard to cross South Alafaya Trail, then west to the Orange County Eastern Regional Water Reclamation Facility.

Other Project Information

Project: City of Orlando ERRWDS Phase II Contract 1B, No. 2983

Contractor: Cathcart Contracting Company

Project Cost: \$ 5,206,568.00

Approximate Start to Completion Dates: July 2009 to July 2010

DISRUPTIONS/SPECIAL NEEDS INDIVIDUALS

If your house or business is adjacent to the construction area, the contractor may be using the grass portion of the County's right of way, the area between your property line and the curb, for temporarily storing equipment and materials. The contractor is required to restore these areas to their original condition if they are disturbed by the contractor's activities. You may have limited access to your driveway for a period of 1 or 2 days. **If you have any special needs individuals in your household, please contact the City Inspector at the number shown in the Contact List provided in this notice to coordinate access to your property.**

Eastern Regional Reclaimed Water Distribution System (ERRWDS) Phase II Contract 1B

Examples of construction activities that could occur on this project

NOTICE:

The construction activities may cause lane closures and detours, creating some temporary inconveniences, including lower speed limits resulting in extended travel times.

Northbound lanes of Woodbury Rd and Golfway Blvd will be modified to maintain two-way traffic during construction.

Please drive with caution in the area of the work zone. Until the final layer of restored pavement has been placed, manholes and curbs may be higher than the roadway surface.

CAUTION:

The contractor will be using large pieces of equipment to install utility lines. Safe pedestrian access and school crossings will be maintained at all times.

Please use caution when in the vicinity of construction. Children should not be allowed around the work site.

IMPENDING WORK!!!

The contractor will soon be starting construction at the intersection of Woodbury Rd. and Golfway Blvd. working south to Alafaya Trail. Other concurrent work will include bore and jack crossing of Alafaya Trail at Golfway Blvd. **Two way traffic on Golfway Blvd. will be temporarily shifted to the north bound lanes.**
